

THE UNIVERSITY  
OF ARIZONA

CULTURAL  
AND RESOURCE  
CENTER GUIDE

FIND YOUR COMMUNITY

**At the University of Arizona**, we believe in modeling the values and attributes of inclusion that we want to see in our global society. From institutional trainings to student-peer mentoring, the Office of Diversity & Inclusion (ODI) team is committed to bringing Inclusive Excellence to life in our campus community.

Our Cultural & Resource Centers are the institutional cornerstones for modeling inclusive excellence. In the Cultural & Resource Centers, students find community connections, programming focused on identity-based learning, and a place to call home. As you review the diverse array of offerings in our Centers, imagine yourself here — being supported, mentored, and championed by a team that cares about your success.

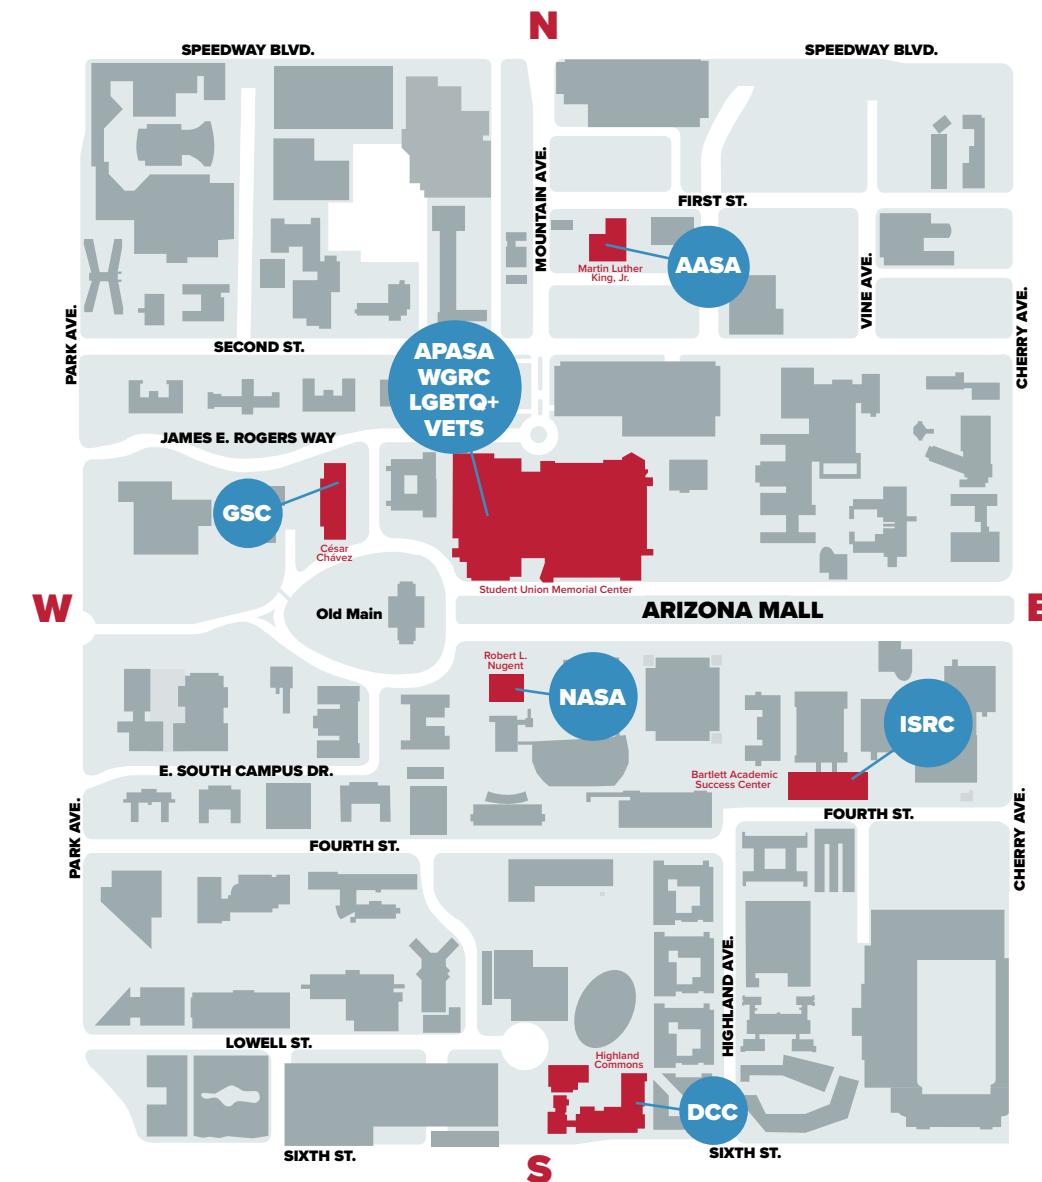

Our Cultural & Resource Centers focus on intersecting identities throughout the year as we celebrate every Heritage Month and develop programming that challenges traditional norms. We strive to continually enhance our welcoming, campus environment where every member of our community is encouraged to bring their true, authentic selves. We look forward to welcoming you to our community and supporting you on your journey of Inclusive Excellence.

Remember, that in Wildcat Country we live our values of diversity & inclusion in Every Wildcat, Every Day!

**Welcome to the University of Arizona!**

The University of Arizona is one of the few campuses in the country to have a Disability Cultural Center! The DCC serves as a unique space for all students, faculty, staff and community members to explore and celebrate disability identity, culture and community. We offer a variety of events and programming that promote an authentic and intersectional perspective on disability.

The DCC has an accessible space on the second floor of the Disability Resource Center, where everyone is welcome to join any of our events, or simply drop by if you need a quiet space to study or recharge. Some of our programming is also hosted online in a virtual setting to remain accessible for all who are unable to visit our space.

We work towards embracing our disabilities and showcasing art, music, literature and other expressions of our lives and our culture created from disability experiences at-large. We aim to challenge disempowering perceptions that view disability as a deficit; something that must be cured or fixed, and instead acknowledging disability as merely another way of being. We welcome anyone who wishes to learn and engage with disability discourse, and/or find a sense of community on our campus.
